CloudAcademy

There's No One-Size-Fits-All Approach to Cloud Migration

Cloud migration is about much more than lift-and-shift. Successfully migrating requires a common language, common understanding, and an organizational ability to align technology solutions to meet business needs. This is possible with transformative training that delivers knowledge and experience at every stage of your migration journey.

Cloud Academy is the only training platform that empowers organizations with the knowledge, skills, and experience they need to optimize technology and architecture decision-making.

ASSIGN PROVEN LEARNING PATHS
to assess, develop, and optimize your workforce's cloud computing skills.

SCENARIO-BASED LEARNING PATHS
deliver experiential training that enable your team to actually operate in the cloud.

SKILL ASSESSMENT
verifies your organization's ability to build, deploy, and operate in the cloud.

HANDS-ON LABS
deliver training on the leading cloud infrastructure platforms in secure, live working environments.

SCENARIO-BASED LABS
are designed to build critical problem solving skills.

ARE YOU SETTING YOUR WORKFORCE UP FOR SUCCESS?

The question is no longer whether to migrate, but which workloads, when, and how. Migrating to one or more clouds means leveraging the benefits of the cloud—performance, scalability, cost, time to market—for a variety of systems, applications, and functions across the enterprise.

Completing your initial migration:

- **Is not just about technology**
  It's also about ensuring meaningful results, matching the business case with the right technology, and ensuring your workforce has the business context to do so.

- **Doesn't require reinventing the wheel**
  Best practices and methodologies streamline the process and ensure value

- **Requires a fundamental cultural shift and augmentation of skills**
  Done effectively, this lays the foundation for reaping the business benefits of the cloud and optimizing for cost, security, and innovation along the way.

CHALLENGE

SOLUTION

CHALLENGE	SOLUTION
Many enterprises rely on multiple technologies to migrate and manage their data in the cloud.	Cloud Academy offers courses, hands-on labs, and skill assessment across all major providers and for relevant cloud infrastructure tools.
Training on rapidly changing technologies can quickly become outdated.	Cloud Academy continuously produces new content and keeps existing content up to date. Your team can learn knowing that the content reflects the latest information and technology.
Changes aren't just technical, but cultural.	Cloud Academy helps our customers understand the cultural and strategic impact a shift to the cloud can have on your organization.
Managers need to be able to customize the learning materials.	Managers can create customized learning paths, incorporate their own materials with Cloud Academy content, and define the structure of their training program.
Training employees can be surprisingly costly and disruptive.	Cloud Academy content is all online, negating the need for costly and distracting travel.
Distributed workforces and teams with multiple competency levels require a more efficient approach.	Cloud Academy is a self-paced learning platform that can be customized to meet the needs of teams and individuals in any company.
Training often is decoupled from the reality of work. It pulls employees away, and then isn't integrated into their day when they return to their desks.	Cloud Academy learning can be completed on an as-needed basis without interrupting your team's daily workflow.
Managers don't have insight into employees' training progress.	Employees and supervisors have intuitive dashboard tools that allow them to track progress toward real-world goals.
Employees aren't engaged or motivated to complete training.	Cloud Academy uses gamification and leaderboards to motivate and engage your teams.
Enterprise training and technology requirements are constantly evolving.	Cloud Academy is built to support self administration. New users can join at any time, and existing users can access content that meets their evolving needs.

Develop a Culture of Cloud

Cloud Academy customers are training their teams on AWS, Microsoft Azure, and a variety of other technologies in the ecosystem. Learn more at **www.cloudacademy.com/enterprise**
